INGREDIENTS

Description:

The best of the best on the market, widely appreciated by customers. Compared to freeze-dried products, they are dried with more advanced and innovative MIRVAC® technology, which provides **better taste, appearance, texture, crunchiness as well as natural and durable colour** matching fresh fruit.

Main advantages:

- much higher quality than freeze-dried products
- preservation of natural appearance, taste and nutritional value
- no unnecessary additives
- extremely lightweight
- low bulk density for high performance
- crispy but with a solid structure
- less prone to crumbling
